**October 23-24, 2021**

**McKinney, Texas**

Join us this Fall to help us celebrate 70 years of the Texas Region SCCA with a fun-packed weekend of National-level RoadRallying on North Texas country roads.

Here's what Rich Beattie wrote about the 2019 ONTO Fall National GTA Rally. "The General Instructions described many things like numbered route instruction, main road determinants, and course following rules that made it more of an untimed National Course Rally... Winner Bruce Gezon described it as really hard, but nevertheless the best Course Rally he had run that year." Jerry White described the traps as "just plain fun." If you email me at [lizwitt@yahoo.com](mailto:lizwitt@yahoo.com), I will send you the Generals, RI's and detailed descriptions of the traps and loops.

We're going to do it again. With a course-following GTA and a Course Rally. On some of the best rally roads around, mostly in Collin County. And Texas is usually beautiful in October.

**ONTO Fall National Course Rally:** Saturday will be a 180-mile course following rally through the countryside on the beautiful, paved roads of rural Texas. And with a grand tour of the town of Farmersville, home of Audie Murphy. Designed for the experienced rallyist, it will have variable Main Road rule priorities and both numbered and lettered Route Instructions. Additionally, some of the numbered instructions will have a choice of actions. Speeds will be moderate with generous use of Free Zones. You will be timed by the Richta app.

**ONTO Fall National GTA Rally:** The Saturday GTA Rally is also course-following and has many of the same traps as the Course Rally. But it has no lettered instructions, so many of the traps are implemented differently. You will be scored by your answers to questions that are designed to determine if you followed the correct course and/or applied the rules correctly.

**Aftershock National Tour Rally:** The Sunday Tour rally is a 180 miles scenic tour on the best paved (and they're mostly good) roads of Collin and Grayson Counties. Just one very short section of gravel. With fun speeds and some timing controls in challenging places. Timing will be with the Richta app.

Liz Witt is Rallymaster and John Poulos is Chairman for all three events.

A few fun facts about Liz and her lengthy journey as a rally competitor and Rallymaster. I began rallying in college (a long time ago). Navigated with a slide rule. On my first rally, I never did figure out how to handle the time for a transit zone. Needless to say, got better with practice. I actively rallied for some years both in Texas and elsewhere. Always liked the trap rallies best: Rustler's Run (1<sup>st</sup> place once), Heart of Dixie (2<sup>nd</sup> place once) and I think On Wisconsin. I forget others. Put on a couple. Then went Racing, ProRallying and on to other interests. Have been back in rallying over a decade and putting on Course Following GTA's for about 5 years. One of our local rallyists gave me a tote sack to carry "Liz's Traps". You'll see a bunch of them on either Saturday rally.

I've had a LOT of help from Jim Crittenden: both with operating procedures and you may recognize his fingerprints on a few of the traps. We've had good experience with the Richta app on two very successful Regional Tour Rallies.

**Pre-registration on MSReg.com recommended** – registration opens July 1<sup>st</sup>. You can enter either the Course or the GTA event on Saturday. If you're running a Saturday event and the Sunday event, you must register for each separately.
